SERVICE
GUIDE

THE LABORATORY

Since 1979, the Sant'Anna Laboratory operates in the field of **clinical medicine** and **biological chemistry**.

Operating for over 35 years in the municipalities of Antrodoco and Borgovelino, in 2017 the structure expanded and moved to the provincial capital, **RIETI**, in the historic district of Villa Reatina (adjacent to the CC "I Cubi") in **via Alcide DE GASPERI, 81**.

The modern and functional environments and the highly qualified staff offer patients a service of excellence in continuous improvement.

Since 1998 the Laboratory has adopted an **UNI EN ISO 9001 Quality Management System**, guaranteeing patients the quality standards of organization required by the law..

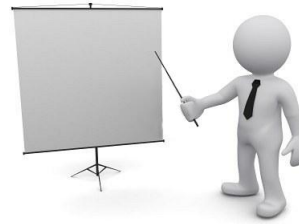

MISSION AND COMPETENCE

The staff of the Sant'Anna Laboratory is made up of a team of highly specialized **doctors, biologists** and **technicians**.

The Laboratory is subject to national **VEQ controls**. The ISO 9001 certification guarantees the training and continuous improvement of personnel performance also through **internal inspections**.

The values to which the founder of the Laboratory, the dott. Agostino Margutti, is inspired by **transparency, security, respect for privacy**.

AGREEMENT AND SERVICES

The agreement with the **National Health Service** allows the laboratory to perform all the analyzes required by current legislation in compliance with the equivalent tariff (available at the office).

The Laboratory also offers other services, such as the cytotoxic test for **food intolerances** and **water potability** analyzes.

ACCESSIBILITY

The Sant'Anna Laboratory has no architectural barriers. Located on the ground floor, with an immediate entrance, it allows **disabled people** and people with walking difficulties to reach the structure.

The **home collection service**, collection of biological samples and delivery of the report is available by appointment with the Secretariat (front office).
